

ADVANSOURCE BIOMATERIALS TO ATTEND MEDTEC CHINA 2010

COMPANY TO EXPAND INTO ATTRACTIVE ASIAN MEDICAL DEVICE MARKET

Wilmington, MA. August 19, 2010... AdvanSource Biomaterials Corporation (NYSE Amex: ASB), a leading developer of advanced polymer materials for a broad range of medical devices, today announced it will be exhibiting at the MEDTEC China 2010 Exhibition being held at INTEX Shanghai, China from August 25-26, 2010. The Company will continue promoting its expanding line of innovative biomaterials focused on the product development needs of the medical device community.

Khristine Carroll, AdvanSource's Senior Vice President of Commercial Operations, stated, "MEDTEC China 2010 is China's premier international trade fair dedicated to the country's fast growing medical device design and manufacturing industry. The promoters of this trade show believe there will be over 6,000 managers, business owners and engineers in attendance who are involved in the design, creation and manufacture of medical products throughout China. This trade show provides the Company the opportunity to introduce its advanced biomaterials technology, capabilities and products as it makes its initial foray into the important and rapidly-growing medical device industry within China. In addition to bringing awareness of our advanced polymer technology and capabilities to the Chinese market, this trade show will also provide the Company the opportunity to meet with potential distribution partners in this rapidly growing region who could represent the Company's products in the near-future. We encourage medical device professionals and the investment community to sign-up for the Exhibit at www.medtecchina.com and meet with us at this event."

Representatives of the Company's senior management and sales staff will be in attendance at booth 518.

About AdvanSource Biomaterials Corporation

AdvanSource Biomaterials Corporation manufactures advanced polymer materials which provide critical characteristics in the design and development of medical devices. The Company's biomaterials are used in devices that are designed for treating a broad range of anatomical sites and disease states. AdvanSource's business model leverages its proprietary materials science technology and manufacturing expertise in order to expand its product sales and royalty and license fee income. More information about AdvanSource is available at its website: www.advbiomaterials.com.

Forward-Looking Statements

AdvanSource believes that this press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements are based on management's current expectations and are subject to risks and uncertainties that could cause results to differ materially from the forward-looking statements. For further information on such risks and uncertainties, you are encouraged to review AdvanSource's filings with the Securities and Exchange Commission, including its Annual Report on Form 10-K for the fiscal year ended March 31, 2010 and its Quarterly Report on Form 10-Q for the quarter ended June 30, 2010. AdvanSource assumes no obligation to update any forward-looking statements as a result of new information or future events or developments, except as required by law.
